WORK EXPERIENCE

SDE Intern

Wingify

Work

- Working on the data layer part of Visual Website Optimizer (VWO).
- Dockerized graylog with elastic search and observed the logs of spring boot application by sending them to the server

Mentor | Problem Setter | Growth Hacker

Coding Club

Work

- Applying my problem-solving skills to help over 100 learners in the community.
- Responsible for conducting workshops and webinars on competitive coding.
- Developing marketing strategies to grow the coding club community across all colleges

Maafia - Web Music Player

Full Stack Intern at iammm.co

Work

- Developed a platform on which all the recent mp3 songs can be stored and played by the user.
- Worked on crawling based solution, Implemented back-end using Spring MVC, Postgres as Database.

Wish2Gift

Back-end Intern at 3CLogic

Work

- Developed an e-commerce website where everyone can fulfil their wish by getting recommendations based on the tags provided by the user.
- Created REST APIs, Implemented back-end using Spring Boot, MySQL & MongoDB as the database.

EDUCATION

B.Tech (Computer Science)

Maharaja Agrasen Institute of Technology

08/2015 – Present

85.3%

Class XII

RPVV Shalimar Bagh

04/2014 – 03/2015

93.6%

TECHNICAL SKILLS

Algorithms

Data Structure

C/C++

Java

Python

Shell Script

ELK

AWS

Regex

Docker

Spring

Node JS

Git

Django

PROJECTS

Face Recognition using KNN

Tech stack - python, ML, OpenCV

Work

- Applied K Nearest Neighbour classification algorithm in face recognition using opencv and HaarCascades CNN Model.

Handwritten Digit Recognition

Tech stack - python, ML, Keras, CNN

Work

- Classified Handwritten Digits using CNN, Implemented front end using html canvas and backend in node js & finally deployed it on heroku

Coupons and Deals System

Tech stack - Java, Spring MVC, MySQL

Work

- Implemented a system which fetches latest deals and coupons from top 7 e-commerce web-stores. Worked on a crawling based solution, Implemented back-end service using Spring MVC

News API

Tech stack - Java, Spring MVC

Work

- Created a back-end API to find relevant news for a particular Category and Country from News API. Returned a filtered JSON output provided to the Micro-service based on the keyword search.

HONORS AND AWARDS

Solved over 500 problems on all coding platforms

codechef | leetcode | hackerrank | interviewbit

Quantitative Ability (Advanced) 99.4%

AMCAT

Merit Certificate | Got University Rank 3

GGSIU
